

Symposium of Green Chemistry

15:50-17:00, 12 October, 2013

G415, Advanced Education and Research Building

by

Cooperative Education and Research Center for Green Chemistry
and Faculty of Science, Niigata University

Prof. Dr. Hisao Murai

Shizuoka University, Shizuoka, Japan

Time-Resolved EPR Study on the Triplet State of an Electron-Donor-Acceptor Complex Formed in the System of *fac*-Tris[2-(4-octyl-phenyl)pyridine] iridium(III) and Tetracene

Prof. Dr. Matvey Fedin

International Tomography Center, Novosibirsk, Russia

Copper-nitroxide Based Thermo/photo-switchable Molecular Magnets: an ESR Study
